---

## PROFESSIONAL EXPERIENCE

### Hatts Off Inc

#### Development Support Worker

February 2024 - Present

- Encourage clients to set personal goals and provide support to help them achieve these objectives.
- Provide emotional support and encouragement to clients during challenging times.
- Collaborate with families, caregivers, and other professionals to ensure consistent and comprehensive support.
- Implement individualized care and behavior support plans developed by supervisors, social workers, or healthcare professionals.

### Ofori Darfour Enterprise

#### Product Manager

March 2023 - September 2023

- I utilized technology to gather, analyse, and interpret data to make informed product decisions.
- I conducted regular market research and analysis to identify market trends, emerging technologies, and potential opportunities or threats to the product.

- I gathered insights to drive product innovation and made informed decisions regarding product features, usability, and user experience.
- I planned market expansion involving the launch of products in new geographic regions and new industries.
